

Global Infusion Group (GIG) is a global catering, logistics, and brand support company with 35 years' experience across the globe.

Following a highly competitive tender process, specialist event and hospitality caterer GIG, has been awarded the Hospitality Services contract for the UK Pavilion at Expo 2020 Dubai.

The challenge

To succeed in the competitive tendering process Global Infusion Group had to demonstrate that their IT Infrastructure was secure and compliant.

One of the requirements was to be Cyber Essentials Plus certified.

The solution

Epoq IT helped GIG achieve Cyber Essentials Plus certification and implemented a bespoke MySecurity solution.

- Epoq IT provided a Cyber Essentials audit and accreditation, so GIG could concentrate on winning the tender and meet cyber security compliance requirements.
- Expert advice and consultancy provided by Epoq's technical consultants meant the correct solutions were implemented and deadlines met.
- A well planned and smooth deployment of Window 10 across all devices enabled GIG to meet Cyber Essentials requirements.
- Encryption of devices implemented where needed to avoid data loss on remote devices.

The benefits

- Cyber Essentials Plus will potentially win more business for GIG
- Encrypted devices protect against data loss
- Modern and secure operating systems across all devices in the business giving peace of mind and offer a more productive workforce.
